

Happiness Together: Senior Couples Living Together

The concept of moving to a senior living community may be appealing, but the decision may not be an easy one. When you choose to move to a new home, it can bring about many considerations: logistical, financial and emotional ones. Then there's the consideration of moving with a spouse, which can create some limitations.

We're happy to welcome couples to our Life Plan Community, also called a continuing care retirement community (CCRC), at The Oaks at Denville. We believe that you and your spouse should be able to enjoy the best things in life. That's why we've created a community where you both can flourish.
